Privacy coins will be the next big thing Says – John McAfee

Nidhi Kolhapur ✉ • 3 days ago 📖 1 minute read

From the past few days, all eyes have been turned to Bitcoin, whose market dominance has steadily increased. This bullish trend is, in turn, creating a lot of buzzes, as the crypto leaders' predictions are reaching a target of a million dollars.

[John McAfee](#), a British-American computer programmer, businessman, and also the **US Presidential Candidate 2020**. Apart from this, he is one of the most interesting and most popular public figures in the crypto industry.

McAfee is an altcoin believer. He believes the real money will be made during the altcoin season. Recently he claimed that **"Altcoin shall rise '10x' as BTC Price Breaks \$12k"**.

Privacy Coins are the future Says – John McAfee

On June 26th McAfee tweeted that “privacy coins will be the next big thing, and you can’t take that away”. McAfee refers privacy coins to a growing category of [cryptocurrencies](#) that aim to be private and fast.
